

Test cases for all users

Name	1. User can register a new account
Design Date	4/22/2026
Preconditions	Application is running. User does not have an existing account.
Executed by:	All members
Execution date:	4/22/2026

Step	Action	Expected System Response	Pass / Fail	Comment
1	Launch the application	Login/Register screen is displayed	pass	
2	Click on 'Register' button	Registration form is shown	pass	
3	Enter valid username, email and password	Fields accept input	pass	
4	Click 'Submit' / 'Register'	Account created; user redirected to dashboard	pass	

Post-condition New user account is stored in the database

Test cases for all users

Name	2. User can login with valid credentials
Design Date	4/22/2026
Preconditions	Application is running. User has a registered account.
Executed by:	All members
Execution date:	4/22/2026

Step	Action	Expected System Response	Pass / Fail	Comment
1	Launch the application	Login screen is displayed	pass	
2	Enter valid username and password	Fields accept input	pass	
3	Click 'Login' button	User is redirected to the dashboard	pass	

Post-condition User is logged in and dashboard is visible

Test cases for all users

Name	3. Login fails with invalid credentials
Design Date	4/22/2026
Preconditions	Application is running.
Executed by:	All members
Execution date:	4/22/2026

Step	Action	Expected System Response	Pass / Fail	Comment
1	Launch the application	Login screen is displayed	pass	
2	Enter incorrect username or password	Fields accept input	pass	
3	Click 'Login' button	Error message displayed; user stays on login screen	pass	

Post-condition User is not authenticated; no access to dashboard

Test cases for all users

Name	4. User can logout successfully
Design Date	4/22/2026
Preconditions	User is logged in and on the dashboard.
Executed by:	All members
Execution date:	4/22/2026

Step	Action	Expected System Response	Pass / Fail	Comment
1	Locate and click 'Logout' button	Confirmation or immediate action occurs	pass	
2	Observe screen transition	User is redirected to the login screen	pass	
3	Attempt to navigate back to dashboard	Access denied; login screen shown	pass	

Post-condition User session is ended; login screen is shown

Test cases for teacher users

Name	5. Teacher can create and edit profile
Design Date	4/22/2026
Preconditions	User is logged in as a teacher.
Executed by:	All members
Execution date:	4/22/2026

Step	Action	Expected System Response	Pass / Fail	Comment
1	Navigate to profile section	Profile page is displayed	pass	
2	Fill in teacher details (name, bio, instrument)	Fields accept input	pass	
3	Click 'Save' button	Profile saved; success message shown	pass	
4	Edit a profile field and click 'Save'	Changes are updated immediately	pass	

Post-condition Teacher profile is saved and visible in the system

Test cases for teacher users

Name	6. Teacher can create, edit and delete time slots
Design Date	4/22/2026
Preconditions	User is logged in as a teacher with a profile.
Executed by:	All members
Execution date:	4/22/2026

Step	Action	Expected System Response	Pass / Fail	Comment
1	Navigate to time slot management	Time slot management screen is shown	pass	
2	Create a new time slot (date, time, duration)	Slot saved and appears in the list	pass	
3	Edit the created time slot	Changes are reflected immediately	pass	
4	Delete the time slot	Slot is removed from the system	pass	

Post-condition Time slots are correctly managed in the database

Test cases for student users

Name	7. Student can view and book an available lesson
Design Date	4/22/2026
Preconditions	User is logged in as a student.
	At least one available time slot exists.
Executed by:	All members
Execution date:	4/22/2026

Step	Action	Expected System Response	Pass / Fail	Comment
1	Navigate to available lessons / booking section	Available time slots are displayed	pass	
2	Select an available time slot	Slot details are shown	pass

4	Check dashboard for booked lesson	Booked lesson appears on dashboard	pass	

Post-condition Lesson is booked and slot is no longer available for others

Test cases for student users

Name	8. Student cannot book an already reserved slot
Design Date	4/22/2026
Preconditions	User is logged in as a student.
	A slot is already booked by another user.
Executed by:	All members
Execution date:	4/22/2026

Step	Action	Expected System Response	Pass / Fail	Comment
1	Navigate to available lessons	Lesson list is displayed	pass	
2	Locate an already reserved slot	Slot shown as unavailable or not listed	pass	
3	Attempt to book the reserved slot	Booking prevented; error message shown	pass	

Post-condition Double booking is prevented; original booking remains intact

Test cases for student users

Name	9. Student can cancel a booked lesson
Design Date	4/22/2026
Preconditions	User is logged in as a student with an existing booking.
Executed by:	All members
Execution date:	4/22/2026

Step	Action	Expected System Response	Pass / Fail	Comment
1	Navigate to dashboard or bookings section	Booked lessons are displayed	pass	
2	Select the lesson to cancel	Lesson details shown with cancel option	pass	
3	Click 'Cancel' button	Cancellation confirmed; lesson removed from bookings	pass	
4	Check the time slot availability	Slot is available again for booking	pass	

Post-condition Booking is cancelled; time slot is available for others

Test cases for invalid inputs

Name	10. System validates invalid inputs in forms
Design Date	4/22/2026
Preconditions	Application is running. Any form is accessible.
Executed by:	All members
Execution date:	4/22/2026

Step	Action	Expected System Response	Pass / Fail	Comment
1	Open registration or booking form	Form is displayed	pass	
2	Leave required fields empty and submit	Error messages shown for empty fields	pass	
3	Enter invalid format (e.g. letters in date field)	Validation error is displayed	pass	
4	Enter valid data and submit	Form submitted successfully	pass	

Post-condition Invalid data is rejected; valid data is accepted and processed
